

OBJECTIVE

Seeking work opportunities in the field of computer science to apply and enhance my knowledge and skills while contributing to innovative projects.

EDUCATION

BSc Computer Science 2023 - 2025

BSc in Computer Science, Bar-Ilan University (Expected Q3 2025)

PROJECTS:

Foo-Tube - Developer 2024

FooTube is a YouTube-inspired web application aimed at imitating YouTube's behavior and design. This project provided hands-on experience in building and hosting full-stack web application.

Key Responsibilities:

- Project planning:** Led the project from conception to deployment, coordinating with a team of 3 developers.
- Backend Development:** Designed and implemented the backend using Node.js and Express.
- Frontend Development:** Created a responsive and dynamic user interface using React.js.
- Database Management:** Developed and managed a MongoDB database to handle user and product data efficiently.
- Hosting:** Deployed the application on an AWS server with a custom domain.

Achievements:

- Independently developed the server and database, ensuring secure and efficient data handling.
- Designed and implemented key features, including video playback, user profiles, search functionality, and authentication.
- Hosted the website on an AWS server with a custom domain, ensuring reliability and accessibility.
- Delivered a cohesive, user-friendly interface through meticulous styling and design.

Technologies Used:

- Frontend:** React.js, HTML5, CSS3
- Backend:** Node.js, Express.js
- Database:** MongoDB
- Tools:** GitHub, Jira
- Hosting:** AWS (EC2, S3), Custom Domain Configuration
